

JUDGE WILLIAM R. DAY.
Assistant Secretary of State Day is an Ohioan and an able lawyer. Secretary Sherman, owing to his advanced age, has relinquished many of his duties to Mr. Day, who is demonstrating that he is a shrewd diplomat.

Sharp!

You are just right they are sharp. They are ready to use, and they will stay so with very little care if properly used. That's the kind of **RAZORS** we sell. We have the other things that go with them, such as the Strops, Honers, Brushes, etc. You have not got a steady hand? Well, then try the "Star Safety Razor." You can't commit suicide with that if you try, and it runs as smoothly as a "Rambler" Safety Bicycle, which you will want to go out on after you are through shaving.

All these things at—

(Continued from Page 1.)

2. \$25,000 for the purpose of widening and improving the present mauka belt road from the top of the Kalanipoo road to Pahoehoe to Aleka in said district and extending the said mauka belt road from said Aleka to the boundary between this district and the District of Kau in said Island of Hawaii.

Referred to the Committee on Public Lands.

Rep. Achi presented the following resolution:

"Resolved, That it is the sense of this House when a Government physician is absent from his district over one month, another be appointed in his place for the length of time he is to be absent."

This resolution was referred to the Joint Committee on Rules.

Rep. Achi stated that he had received letters from the District of Kau telling of the hardships suffered by some of the poor people on account of the lack of a Government physician there. The present physician had been granted a leave of absence for two months. Another man had gone up to take his place, but had not been appointed by the Government. He was employed by the plantations and would do no outside work.

Rep. Robertson introduced the following resolution:

"Resolved, That no bill be allowed to be introduced into this House after the 11th day of April, except by a Cabinet Minister or by a Committee of this House relating to some matter having been duly referred to the same."

Rep. Robertson stated that it was customary when this stage of the session was reached to take steps toward bringing matters in hand to a close. The matter should receive the careful attention of the members. He therefore moved to make the resolution the special order of the day for Wednesday. Carried.

House Bill 49, relating to the limitations of time within which actions may be ordered to recover possession of land, read second time and passed. Third reading set for Wednesday.

Rep. Pogue reported as follows for the Finance Committee on House Bill 42, relating to the duty on spirituous liquors, still wines and other beverages made from materials other than grape juice, and amending Section 1 of Act 79 of the Session Laws of 1896 relating thereto; also, Petition No. 44 from Japanese sake dealers, asking for a remission of the duty on that article especially.

"Prior to July, 1897, there was a large amount of sake imported into the Republic, a large proportion of which was consumed by the native Hawaiians on whom the effect was one to be deplored. That owing to the passage of the act which this bill proposes to amend, and which went into effect July 1st, 1897, the importation of sake has gradually diminished, until for the first three months of 1898, the amount imported was only 2983 gallons. That, in consequence the consumption by the native Hawaiians has almost entirely stopped since the taking effect of the act of 1896. From which your committee deduct the conclusion that the high duty imposed by the said act has placed this kind of liquor at such a high price that the native Hawaiians have either used less beverages of this nature, or have sought some other beverage, which does not have the deplorable effect which sake has. On inquiry, your committee believe that the sake used in Japan is a much milder and another article than that commonly retailed here, whether the substance or substances in sake which cause this deplorable effect on those drinking this liquor is added before or after importation, we are unable to determine.

"Your committee believe that it is impossible to import the sake used in Japan, into this country, unless the same be fortified with more or less alcohol or other fortifying spirit or substance. Again on inquiry, your committee have cause to believe that the amount of sake used among the Japanese laborers here does not nearly amount to the quantity named in the petition, that a large number of the better class of laborers do not use sake, but very little if any, and that consequently the present law creates no hardships over them.

"Again, the present bill by imposing a special duty on sake, would discriminate either for or against the same, which your committee do not consider wise to do at this time. We do therefore recommend that the bill and petition be laid on the table."

Report laid on the table to be considered with the bill.

First and second readings of House Bill 41, relating to the erection of steam laundries in the city of Honolulu.

Rep. Wilder as chairman of the Commerce Committee, explained the reason for bringing in the substitute bill. The committee had looked carefully into the matter and had found that the Government had been to a great expense in the erection of wash-houses in Twile. This was done as a sanitary measure. Although all the rooms were occupied by Chinamen the cost of building the wash-houses had not been realized as yet by the Government from rent. Erecting a steam laundry within the city limits should not be considered without the probable effect on the Government income. The Commission had decided that a license must not be issued to one person, but must be made general and the license put at such a sum as to exclude all small fry who might want to set up a steam laundry with a boiler on a wheelbarrow and a small machine. The license had been placed at \$150. He was sorry to notice a motion to reduce this to \$100.

After quite a little discussion, the license section was reduced to \$100. Third reading of the laundry bill set for Wednesday.

At 1:25 House adjourned.

AUCTION SALE OF

Unclaimed Goods.

By order of the Collector General of Customs, I will sell at Public Auction, at my salesroom, Queen street, Honolulu, on THURSDAY, April 7, 1898, at 10 o'clock, a. m., the following unclaimed articles from the Custom House, Honolulu:

Diamond M. Co., 1 tub soy, S. S. Gaelic, March, 1898.

Diamond K. S. K., 3 tubs soy, S. S. Gaelic, March, 1898.

Diamond S., 11 tubs soy, S. S. Gaelic, March, 1898.

JAS. F. MORGAN, Auctr.

Bad!

It is news to you, perhaps, that baking powder can be bad for the insides. Good baking powder, however, is not bad for the insides.

True, it costs more than baking powder at 25 cents or 30 cents a pound; but it does better work, and more work for the money, than "cheap" baking powder does, and it does no harm.

Of the right-price baking powders *Schilling's Best* is the best—your money back if you don't like it—at your grocer's.

ALL LEATHER.

That is the one essential point that should be considered in buying

VALISES AND SATCHELS.

It's false economy to buy one of paper, or imitation leather. Don't be carried away with the idea that they are as lasting as leather.

Look at Our Window.

All Sizes. All Prices to suit the times.
